

HARTLEY ROAD PRIMARY SCHOOL

FOUNDATION PHASE

GRADE 3

10 August 2020

Assalaamu Alaikum and warm greetings to our wonderful parents. We trust that you keeping safe and healthy.

The grade three educators would like to thank the parents for your understanding and cooperation during this National lockdown. We trust that you as parents are regularly checking on our school's website and ensuring that your child completes the tasks that have been assigned to him/her. Please note that no work has been set for the previous week as we decided that our learners needed a short break.

For this week (10th – 14th August), you will find two baseline assessments uploaded to our website. One is for Mathematics and the other for English. Take note that these baseline assessments are based on the term two work that has been done via the website and our drive-throughs.

Instructions for the baseline assessment:

1. Mathematics and English baseline assessments should be done on different days.
2. Give your child the assessment and give a time frame of one hour. Please adhere to this.
Note: Only group three learners can be given an extra 10-15 minutes.
3. The assessment should ***not be read*** to the learners. Only group three learners, who have great difficulty reading, can be read to.
4. When the time limit is up, mark your child's test paper against the memo provided.
5. Calculate the total.
6. Work with your child through their areas of concern. Explain these using the memo.

Yours in education

The grade three team.

Stay
safe
AND
healthy
