

Good day Little Hart's Mums and Dads

We trust that you and your family are well and in good health during this challenging time. The Grade R educators have prepared a Mathematics and English revision worksheet which includes work covered in term 1 and 2. This is to ensure that learners understand all concepts covered thus far. Kindly assist your child by reading the instructions for them and allow them to answer on their own. If you are unable to print out worksheets, allow your child to answer the questions orally or alternatively re-write the questions on a page.

Should you find that your child does not understand any concepts covered in the revision sheets, kindly reinforce and consolidate those concepts in order to prepare them for term 3 work (17 August 2020).

Thank you for your continued support and cooperation.
