

**Grade 4**

**Social Science : History**

**Lesson 6 : Transport Through Time**

**Date : 24/08/2020 - 28/08/2020**

**MEMO**

---

1. Explain the problems caused by air pollution in picture:  
**A - Damage to people's health. It causes damage to the lungs and people get asthma and other breathing diseases.**  
**B - Global warming causes plants and animals to die.**
  
2. Write down two types of air pollution that you see in your area.
  - **Fumes and smoke from factories and oil refineries.**
  - **Exhaust fumes from lots of traffic.**
  - **Gases from the landfill site.**
  
3. Why do people in some cities of the world wear masks?  
**The air is very polluted so they wear masks to prevent them from getting sick.**
  
4. Describe two ways to cut down exhaust fumes in a big city.
  - **Reduce the number of motor vehicles in cities. One way can be by building bicycle tracks and encouraging people ride to work, school etc.**
  - **Use electric forms of transport e.g. electric cars, trains and buses.**
  - **Car pools and lift clubs.**

**(Any 2)**
