

HARTLEY ROAD PRIMARY SCHOOL

FOUNDATION PHASE

GRADE 3

31 August 2020

Assalaamu Alaikum and warm greetings to our wonderful parents.

We trust that you are all safe and in good health. As you are aware, the phasing in of our grade one to three learners has commenced. We have had good attendance for our first week and everything has gone smoothly. The learners have settled back into their routine and it is imperative that they stick to a routine on the days which they are not attending school.

Please be advised that the online work for Mathematics, English and Afrikaans for this week is a continuation of revision of term one and two work. Term three work will resume from next week (7th September). Please ensure that your child completes the work that has been assigned to him/ her as this provides your child with the opportunity to practice the concepts that have been learnt thus far. These activities will also help to inform you, as a parent of the concepts which should be focused on and revised more thoroughly. These concepts must be retaught to your child using the online work and online lessons done by our educators. Also note that the syllabus will continue for Life Skills.

Please ensure that your child is sent to school with all his/ her stationery as borrowing will not be allowed.

Yours in education

The grade 3 team

*Stay Safe
and
Healthy*
