## Mathematics Grade 1

Date: 22 May 2020

**Do your counting, bonds and revise all your halving and doubling.**

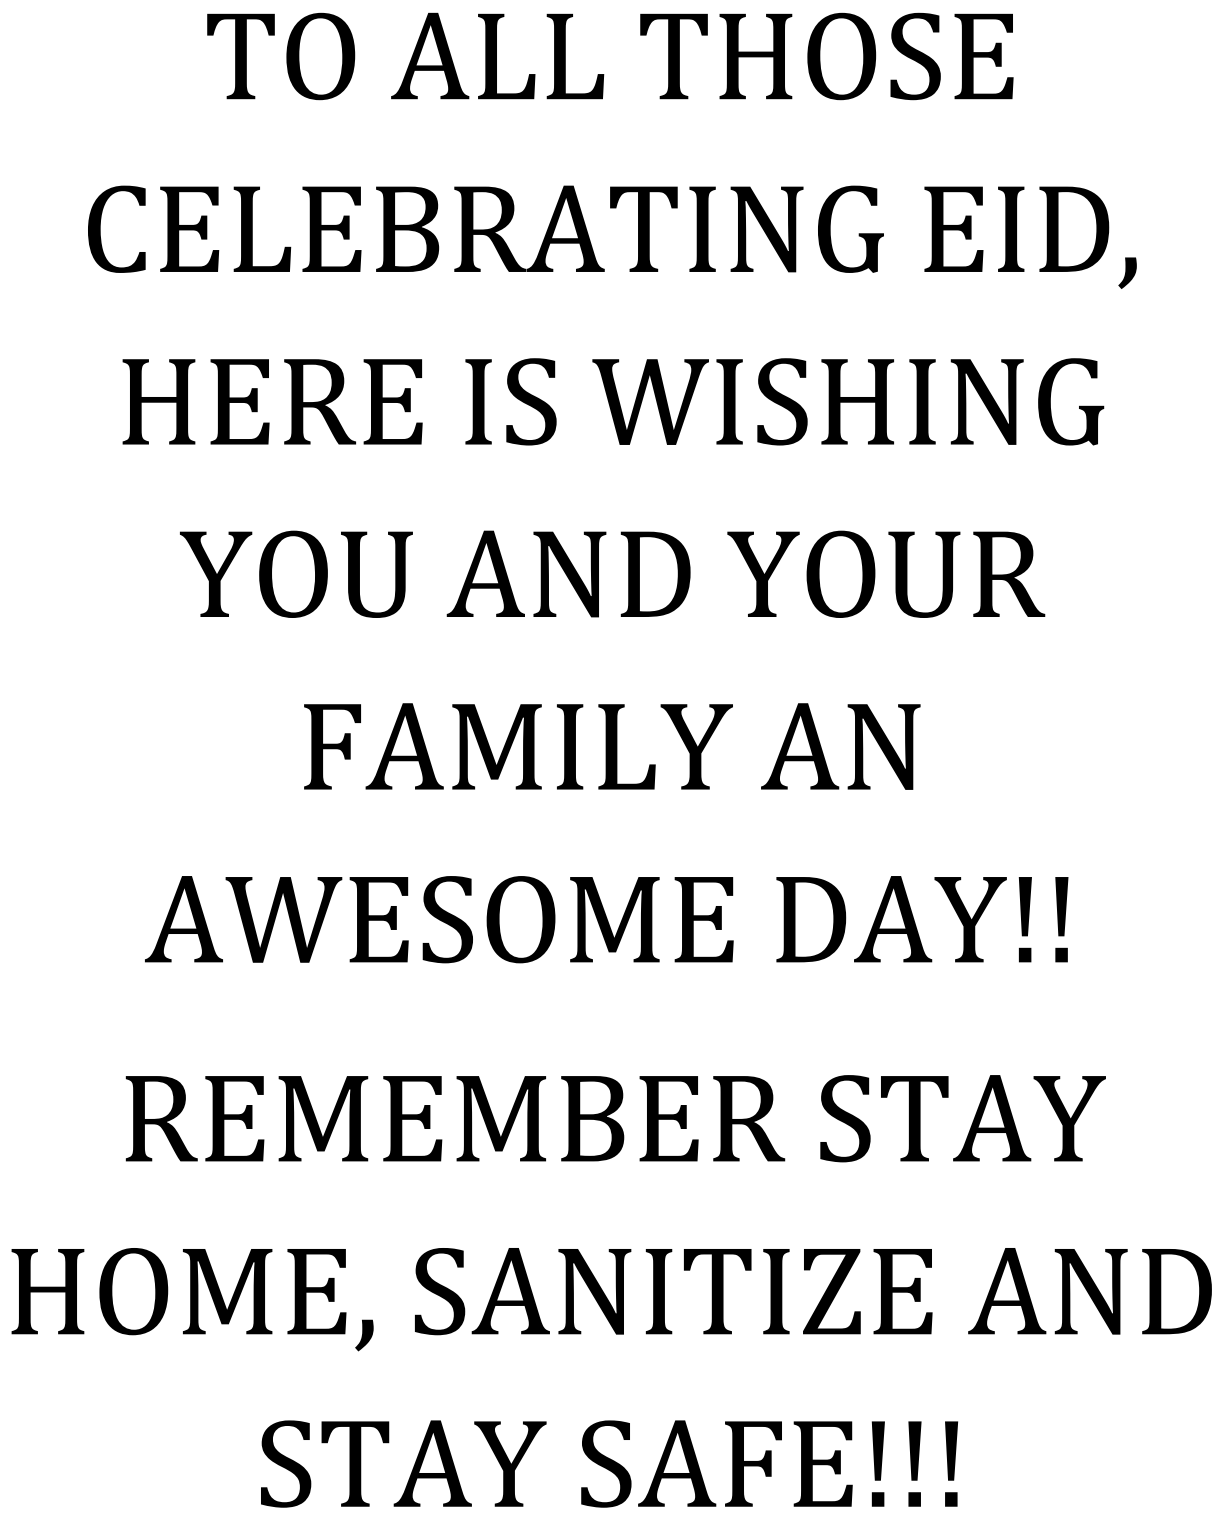

Say all the days of the week. You can even start learning to spell them.

Say all the months of the year. Remember days and months are names, so they begin with a capital letter.

Today we are going to do a speed test. This is to test how fast and accurate you are at bonds. You will get 30 sums. Ask an adult to time you. See how many minutes it takes you to complete them. Remember in a speed test you must not confuse addition with subtraction. If you don't know an answer go to the next sum. When you finish all your sums, then you can complete the ones you left out.

$2+3=$	$6-3=$	$5+3=$
$4-1=$	$4+2=$	$8-4=$
$2+1=$	$3+4=$	$2+6=$
$5-0=$	$7-2=$	$9-3=$
$3+1=$	$5+2=$	$1+7=$
$4-2=$	$6-2=$	$6+4=$
$2+2=$	$7+0=$	$10-3=$
$5-3=$	$7-5=$	$6+3=$
$4-4=$	$6-1=$	$8-2=$
$3+3=$	$5+1=$	$5+4=$

How many minutes did it take you? Did you get **30/30**. If you did, well done!
