Respected Grade 7 Parents

We were informed yesterday afternoon that two of our Grade 7 learners tested COVID-19 Positive. They have not been to school for the past week.

We contacted the Department of Education and the Department of Health and they advised us that they will conduct a Risk Assessment, Screening and Testing were necessary. We immediately sanitised all the Grade 7 classrooms which is part of our daily procedure and moved the two affected classes today to alternate classrooms as an extra precautionary measure.

The Department of Health arrived at school today and is presently conducting a risk assessment of all Grade 7 learners and teachers who had close contact with the affected learners.

The Department of Health has advised us the following:

- 1) Close contacts of the affected learners need to be quarantined for a period of 14 Days and if they present any symptoms, they need to do a COVID-19 test.
- 2) The school will be sanitised and disinfected as per the given protocols.

We will keep you informed of further developments. We pray and make dua that the Almighty keep Everybody Safe and Healthy.

Regards

Mr. M.R Ballim
